Description

This rugged 100% Neoprene glove is suitable for many heavy-duty applications including but not limited to pellet-blasting and sandblasting. Available either smooth finished or with a special rough textured grip, the glove is very durable and is launderable. Its five-piece flannel liner helps keep you cool and comfortable in hot conditions or warm in cold conditions. Neoprene is the ideal choice for handling acids and caustics. Best Neoprene gloves are available in several different lengths and cuffing configurations including shoulder-length and is manufactured in compliance with 21 CFR, parts 170 -199 and is acceptable for food handling applications.

Suggested Applications

- Manufacturing
- Battery Manufacturing
- Sand Blasting
- Fuel Handling and Refineries
